

# Seminars for RoadCaptains/GroupRiding Arrive Alive Can You See Me

These seminars are being offered to the public at no charge, Our interest in offering this is to give both the public and the motorist and the motorcyclist knowledge about safety in driving and riding in our streets . [The RoadCaptains/Group Riding] is a seminar to help those that want to learn how to ride together in groups as for to many times we see groups riding together in an unsafe manor for both the motorcyclist and for the motorist. They have too many in the groups or they are just riding in an unsafe manor that creates safety hazards on our streets. This will give them the proper techniques in riding in groups and also will give them the certifications as Road captains that some Motorcycle organizations require to ride in groups .This course is a two hour classroom and a half a day of riding to complete the course, and will receive a Road Captains Certificate and patch but must complete the entire course. Their motorcycle will need to pass an safety inspection and proof on insurance and safety riding gear will be required.[Arrive Alive] This is a seminar for motorcyclist that are interested in knowing the key elements in staying alive on our streets while riding a motorcycle. With Arizona being at the top of the worst state to ride a motorcycle in, we think it is important to get the knowledge out to the riders to help reduce the accidents involving motorcycles. This is a two hour class room seminar. [Can You See Me] This is a seminar is for motorist to be aware of motorcyclist, our plain is get the public, those that are driving cars trucks and other vehicles to look twice or three times when driving, We already know that motorcycles are hard to see because of their size, we also will encourage motorcyclist to wear more visible clothing when riding to help motorist to see them. This is a two hour class room seminar. These seminars will be held at Luke Air Force Base. [Sponsors] We will be looking for sponsors to sponsor these programs to help pay for what it takes to provide these programs .those Sponsors will have their names on the web site as sponsors and on the materials handed out .
